Item 4: Advisory Business

Firm Description

Comprehensive Planning Associates, Ltd. (“COMPASS”) was founded in 1989 as an insurance and tax services company. The McClatchie Family Trust is 57.6% stockholder; G Brunner Trust is 21.2% stockholder; and Matthew Brunner is 21.2% stockholder.

COMPASS is a fee based financial planning and investment management firm. The firm also sells annuities and insurance products for a separate yet typical commission and provides tax planning services for a fee to clients.

COMPASS does not act as a custodian of client assets. The client always maintains asset control.

An evaluation of each client's initial situation is provided to the client, often in the form of a net worth statement, risk analysis or similar document. Periodic reviews are also communicated to provide reminders of the specific courses of action that need to be taken. More frequent reviews occur but are not necessarily communicated to the client unless immediate changes are recommended.

Other professionals (e.g., lawyers, accountants, insurance agents, etc.) are engaged directly by the client on an as-needed basis. Conflicts of interest will be disclosed to the client in the event they should occur.

Types of Advisory Services

ASSET MANAGEMENT

COMPASS offers discretionary direct asset management services to advisory clients. COMPASS will offer clients ongoing portfolio management services through determining individual investment goals, time horizons, objectives, and risk tolerance. Investment strategies, investment selection, assets allocation, portfolio monitoring and the overall investment program will be based on the above factors. The client will authorize COMPASS discretionary authority to execute selected investment program transactions as stated within the Investment Advisory Agreement.

FINANCIAL PLANNING AND CONSULTING

If financial planning services are applicable, the client will compensate COMPASS on an hourly fee basis or fixed fee basis described in detail under “Fees and Compensation” section of this brochure. Services include but are not limited to a thorough review of all applicable topics including Wills, Estate Plan/Trusts, Investments, Taxes, and Insurance. If conflict of interest exists between the interests of the investment advisor and the interests of the client, the client is under no obligation to act upon the investment advisor’s recommendation. If the client elects to act on any of the recommendations, the client is under no obligation to effect the transaction through COMPASS. Financial plans will be completed and delivered inside of ninety (90) days.

SEMINARS AND WORKSHOPS

COMPASS holds seminars and workshops to educate the public on different types of investments and the different services they offer. The seminars are educational in nature and no specific investment or tax advice is given. COMPASS does not charge a fee for attendance to these seminars.

Client Tailored Services and Client Imposed Restrictions

The goals and objectives for each client are documented in our client files. Investment strategies are created that reflect the stated goals and objective. Clients may impose restrictions on investing in certain securities or types of securities. Agreements may not be assigned without written client consent.

Wrap Fee Programs

COMPASS does not participate in wrap fee programs.

Client Assets under Management

As of December 31, 2021 COMPASS, managed approximately \$40,816,000 of client assets under management on a discretionary basis and \$0 in non-discretionary assets under management.

Item 5: Fees and Compensation

Method of Compensation and Fee Schedule.ASSET MANAGEMENT

COMPASS offers discretionary direct asset management services to advisory clients. The fees for these services will be based on a percentage of Assets Under Management as follows:

Assets Under Management	Annual Fee	Quarterly Fee
First \$500,000	1.95%	.4875%
Next \$500,000	1.5%	.375%
Next \$1,000,000	1.00%	.250%
\$2,000,000 - \$5,000,000	.75%	.188%
Over \$5,000,000	.50%	.125%

The annual Fee may be negotiable. Accounts within the same household may be combined for a reduced fee. Fees are billed quarterly in advance based on the amount of assets managed as of the last business day of the previous quarter. Quarterly advisory fees deducted from the clients' account by the custodian will be reflected in a provided fee invoice as fees are withdrawn. Lower fees for comparable services may be available from other sources. Clients may terminate their account within five business days of signing the Investment Advisory Agreement for a full refund. Clients may terminate advisory services with thirty (30) days written notice. The client will be entitled to a pro rata fee for the days service was provided in the final monthly. Client shall be given thirty (30) days prior written notice of any increase in fees.

FINANCIAL PLANNING AND CONSULTING

Prior to the planning process the client will be provided an estimated plan fee. Client will pay half of the estimated fee at the signing of the agreement with the balance due upon delivery of the completed plan. Services are completed and delivered inside of ninety (90) days. Client may cancel within five (5) days of signing Agreement for a full refund. If the client cancels after five (5) days, any unearned fees will be refunded to the client, or any unpaid earned fees will be due to COMPASS.

HOURLY FEES

Financial Planning Services are offered based on an hourly fee of \$250 per hour.

FIXED FEES

Financial Planning Services are offered based on a flat fee between \$1000 and \$10,000.

Client Payment of Fees

Investment management fees are billed quarterly in advance, meaning we bill you before the three-month period has started. Payment in full is expected upon invoice presentation. Fees are usually deducted from a designated client account to facilitate billing. The client must consent in advance to direct debiting of their investment account.

Fees for financial plans are billed 50% in advance, with the balance due upon plan delivery.

Additional Client Fees Charged

Custodians may charge transaction fees on purchases or sales of certain mutual funds, equities and exchange-traded funds. These charges may include Mutual Fund transactions fees, postage and handling and miscellaneous fees (fee levied to recover costs associated with fees assessed by self-regulatory organizations). The selection of the security is more important than the nominal fee that the custodian charges to buy or sell the security.

COMPASS, in its sole discretion, may waive its minimum fee and/or charge a lesser investment advisory fee based upon certain criteria (e.g., historical relationship, type of assets, anticipated future earning capacity, anticipated future additional assets, dollar amounts of assets to be managed, related accounts, account composition, negotiations with clients, etc.).

For more details on the brokerage practices, see Item 12 of this brochure.

Prepayment of Client Fees

Investment management fees are billed quarterly in advance.

Financial planning fees will be billed half of the estimated fee at the signing of the agreement with the balance due upon delivery of the completed plan.

If the client cancels after five (5) days, any unearned fees will be refunded to the client, or any unpaid earned fees will be due to COMPASS.

External Compensation for the Sale of Securities to Clients

Ms. Brunner receives external compensation for the sale of securities to clients as a registered representative of Gradient Securities, LLC, a broker-dealer. Approximately 10% of her time is spent in this practice and less than 15% of her total revenue is generated as a registered representative. From time to time, she will offer clients products from this activity.

This represents a conflict of interest because it gives an incentive to recommend products based on the commission received. As a registered representative, Ms. Brunner does not charge advisory fees for the services offered through Gradient Securities, LLC. This conflict is mitigated by disclosures, procedures, and the firm's Fiduciary obligation to place the best interest of the client first and clients are not required to purchase any products or services. Clients have the option to purchase these products through another registered representative of their choosing.

Item 6: Performance-Based Fees

Sharing of Capital Gains

Fees are not based on a share of the capital gains or capital appreciation of managed securities.

COMPASS does not use a performance-based fee structure because of the conflict of interest. Performance based compensation may create an incentive for the adviser to recommend an investment that may carry a higher degree of risk to the client.

Item 7: Types of Clients

Description

COMPASS generally provides investment advice to individuals, high net worth individuals and trusts/estates.

Client relationships vary in scope and length of service.

Account Minimums

COMPASS does not require a minimum to open an account, but some third party money managers may have minimums which would be disclosed in the documents provided by the third party money manager.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

Security analysis methods may include fundamental analysis, technical analysis, and cyclical analysis. Investing in securities involves risk of loss that clients should be prepared to bear. Past performance is not a guarantee of future returns.

Fundamental analysis involves evaluating a stock using real data such as company revenues, earnings, return on equity, and profits margins to determine underlying value

and potential growth. Technical analysis involves evaluating securities based on past prices and volume. Cyclical analysis involves analyzing the cycles of the market.

When creating a financial plan, COMPASS utilizes fundamental analysis to provide review of insurance policies for economic value and income replacement. Technical analysis is used to review mutual funds and individual stocks. The main sources of information include Morningstar, client documents such as tax returns and insurance policies.

In developing a financial plan for a client, COMPASS' analysis may include cash flow analysis, investment planning, risk management, tax planning and estate planning. Based on the information gathered, a detailed strategy is tailored to the client's specific situation.

The main sources of information include financial newspapers and magazines, annual reports, prospectuses, and filings with the Securities and Exchange Commission.

Investment Strategy

The investment strategy for a specific client is based upon the objectives stated by the client during consultations. The client may change these objectives at any time. Each client executes an Investment Policy Statement or Risk Tolerance that documents their objectives and their desired investment strategy.

Other strategies may include long-term purchases, short-term purchases, trading, and option writing (including covered options, uncovered options or spreading strategies).

Security Specific Material Risks

Fundamental analysis may involve interest rate risk, market risk, business risk, and financial risk. Risks involved in technical analysis are inflation risk, reinvestment risk, and market risk. Cyclical analysis involves inflation risk, market risk, and currency risk.

Investing in securities involves risk of loss that clients should be prepared to bear. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks and should discuss these risks with COMPASS:

- *Interest-rate Risk:* Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- *Market Risk:* The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic and social conditions may trigger market events.
- *Inflation Risk:* When any type of inflation is present, a dollar today will buy more than a dollar next year, because purchasing power is eroding at the rate of inflation.

- *Currency Risk:* Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- *Reinvestment Risk:* This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- *Business Risk:* These risks are associated with a particular industry or a particular company within an industry. For example, oil-drilling companies depend on finding oil and then refining it, a lengthy process, before they can generate a profit. They carry a higher risk of profitability than an electric company which generates its income from a steady stream of customers who buy electricity no matter what the economic environment is like.
- *Liquidity Risk:* Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.
- *Financial Risk:* Excessive borrowing to finance a business' operations increases the risk of profitability, because the company must meet the terms of its obligations in good times and bad. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

Item 9: Disciplinary Information

Criminal or Civil Actions

COMPASS and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

COMPASS and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

COMPASS and its management have not been involved in legal or disciplinary events related to past or present investment clients.

Item 10: Other Financial Industry Activities and Affiliations

Broker-Dealer or Representative Registration

Representatives of COMPASS are currently registered representatives of Gradient Securities, LLC; a registered broker-dealer.

Futures or Commodity Registration

Neither COMPASS nor its employees are registered or has an application pending to register as a futures commission merchant, commodity pool operator, or a commodity trading advisor.

Material Relationships Maintained by this Advisory Business and Conflicts of Interest

Investment Advisor Representatives of COMPASS are also licensed insurance agents, tax preparers and registered representatives with Gradient Securities, LLC; a broker-dealer. Approximately 25% of their time is spent on these practices. From time to time, they will offer clients services from those activities.

This represents a conflict of interest because it gives an incentive to recommend products and services based on the commission and/or fee amount received. This conflict is mitigated by disclosures, procedures, and the firm's Fiduciary obligation to place the best interest of the client first and the clients are not required to purchase any products or services. Clients have the option to purchase these products or services through another insurance agent, registered representative or tax preparer of their choosing.

Recommendations or Selections of Other Investment Advisors and Conflicts of Interest

COMPASS currently does not recommend or select other investment advisors.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Code of Ethics Description

The employees of COMPASS have committed to a Code of Ethics ("Code"). The purpose of our Code is to set forth standards of conduct expected of COMPASS employees and addresses conflicts that may arise. The Code defines acceptable behavior for employees of COMPASS. The Code reflects COMPASS and its supervised persons' responsibility to act in the best interest of their client.

One area the Code addresses is when employees buy or sell securities for their personal accounts and how to mitigate any conflict of interest with our clients. We do not allow any employees to use non-public material information for their personal profit or to use internal research for their personal benefit in conflict with the benefit to our clients.

COMPASS' policy prohibits any person from acting upon or otherwise misusing non-public or inside information. No advisory representative or other employee, officer or director of COMPASS may recommend any transaction in a security or its derivative to advisory clients or engage in personal securities transactions for a security or its derivatives if the advisory representative possesses material, non-public information regarding the security.

COMPASS' Code is based on the guiding principle that the interests of the client are our top priority. COMPASS's officers, directors, advisors, and other employees have a fiduciary

duty to our clients and must diligently perform that duty to maintain the complete trust and confidence of our clients. When a conflict arises, it is our obligation to put the client's interests over the interests of either employees or the company.

The Code applies to "access" persons. "Access" persons are employees who have access to non-public information regarding any clients' purchase or sale of securities, or non-public information regarding the portfolio holdings of any reportable fund, who are involved in making securities recommendations to clients, or who have access to such recommendations that are non-public.

COMPASS will provide a copy of the Code of Ethics to any client or prospective client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflict of Interest

COMPASS and its employees do not recommend to clients securities in which we have a material financial interest.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

COMPASS and its employees may buy or sell securities that are also held by clients. In order to mitigate conflicts of interest such as front running, employees are required to disclose all reportable securities transactions as well as provide COMPASS with copies of their brokerage statements.

The President of COMPASS is Gretchen Brunner. She reviews all employee trades each month. The personal trading reviews ensure that the personal trading of employees does not affect the markets and that clients of the firm receive preferential treatment over employee transactions.

Client Securities Recommendations or Trades and Concurrent Advisory Firm Securities Transactions and Conflicts of Interest

COMPASS does not maintain a firm proprietary trading account and does not have a material financial interest in any securities being recommended and therefore no conflicts of interest exist. However, employees may buy or sell securities at the same time they buy or sell securities for clients. In order to mitigate conflicts of interest such as front running, employees are required to disclose all reportable securities transactions as well as provide COMPASS with copies of their brokerage statements.

The President of COMPASS is Gretchen Brunner. She reviews all employee trades each quarter. The personal trading reviews ensure that the personal trading of employees does not affect the markets and that clients of the firm receive preferential treatment over employee transactions.

Item 12: Brokerage Practices

Factors Used to Select Broker-Dealers for Client Transactions

COMPASS may recommend the use of a particular broker-dealer such as TD AMERITRADE Institutional, a Division of TD AMERITRADE, Inc., Member FINRA/SIPC/NFA or may utilize a broker-dealer of the client's choosing. COMPASS will select appropriate brokers based on a number of factors including but not limited to their relatively low transaction fees and reporting ability. COMPASS relies on its broker to provide its execution services at the best prices available. Lower fees for comparable services may be available from other sources. Clients pay for any and all custodial fees in addition to the advisory fee charged by COMPASS.

COMPASS participates in the TD Ameritrade Institutional program. TD Ameritrade Institutional is a division of TD Ameritrade, Inc. ("TD Ameritrade") member FINRA/SIPC/NFA. TD Ameritrade, Inc. ("TD Ameritrade") is an independent SEC-registered broker-dealer and is not affiliated with COMPASS. TD Ameritrade offers to independent investment Advisors services which include custody of securities, trade execution, clearance and settlement of transactions. Advisor receives some benefits from TD Ameritrade through its participation in the program. (Please see the disclosure under Item 14)

- *Directed Brokerage*

In circumstances where a client directs COMPASS to use a certain broker-dealer, COMPASS still has a fiduciary duty to its clients. The following may apply with Directed Brokerage: COMPASS's inability to negotiate commissions, to obtain volume discounts, there may be a disparity in commission charges among clients, and conflicts of interests arising from brokerage firm referrals.

- *Best Execution*

Investment advisors who manage or supervise client portfolios on a discretionary basis have a fiduciary obligation of best execution. The determination of what may constitute best execution and price in the execution of a securities transaction by a broker involves a number of considerations and is subjective. Factors affecting brokerage selection include the overall direct net economic result to the portfolios, the efficiency with which the transaction is effected, the ability to effect the transaction where a large block is involved, the operational facilities of the broker-dealer, the value of an ongoing relationship with such broker and the financial strength and stability of the broker. The firm does not receive any portion of the trading fees.

- *Soft Dollar Arrangements*

The Securities and Exchange Commission defines soft dollar practices as arrangement under which products or services other than execution services are obtained by Advisor from or through a broker-dealer in exchange for directing client transactions to the broker-dealer. As permitted by Section 28(e) of the

Securities Exchange Act of 1934, Advisor receives economic benefits as a result of commissions generated from securities transactions by the broker-dealer from the accounts of Advisor. These benefits include both proprietary research from the broker and other research written by third parties.

A conflict of interest exists when Advisor receives soft dollars. This conflict is mitigated by disclosures, procedures, and the firm's Fiduciary obligation to act in the best interest of its clients and the services received are beneficial to all clients.

Aggregating Securities Transactions for Client Accounts

COMPASS is authorized in its discretion to aggregate purchases and sales and other transactions made for the account with purchases and sales and transactions in the same securities for other Clients of COMPASS. All clients participating in the aggregated order shall receive an average share price with all other transaction costs shared on a pro-rated basis.

Item 13: Review of Accounts

Schedule for Periodic Review of Client Accounts or Financial Plans and Advisory Persons Involved

Account reviews are performed quarterly by Investment Advisor Representatives of COMPASS. Account reviews are performed more frequently when market conditions dictate. Financial Plans are considered complete when recommendations are delivered to the client and a review is done only upon request of client.

Review of Client Accounts on Non-Periodic Basis

Other conditions that may trigger a review of clients' accounts are changes in the tax laws, new investment information, and changes in a client's own situation.

Content of Client Provided Reports and Frequency

Clients receive written account statements no less than quarterly for managed accounts. Account statements are issued by the Advisor's custodian. Client receives confirmations of each transaction in account from Custodian and an additional statement during any month in which a transaction occurs.

Item 14: Client Referrals and Other Compensation

Economic Benefits Provided to the Advisory Firm from External Sources and Conflicts of Interest

As disclosed under Item 12 above, Advisor participates in TD Ameritrade's institutional customer program and Advisor may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between Advisor's participation in the program and the investment advice it gives to its Clients, although Advisor receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and

services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to Advisor by third party vendors.

TD Ameritrade may also have paid for business consulting and professional services received by Advisor's related persons. Some of the products and services made available by TD Ameritrade through the program may benefit Advisor but may not benefit its Client accounts. These products or services may assist Advisor in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help Advisor manage and further develop its business enterprise. The benefits received by Advisor or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, Advisor endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by Advisor or its related persons in and of itself creates a conflict of interest and may indirectly influence the Advisor's choice of TD Ameritrade for custody and brokerage services.

Advisory Firm Payments for Client Referrals

COMPASS does not compensate for client referrals.

Item 15: Custody

Account Statements

All assets are held at qualified custodians, which means the custodians provide account statements directly to clients at their address of record at least quarterly. Clients are urged to compare the account statements received directly from their custodians to the performance report statements prepared by COMPASS.

COMPASS is deemed to have constructive custody solely because advisory fees are directly deducted from clients' accounts by the custodian on behalf of COMPASS.

Item 16: Investment Discretion

Discretionary Authority for Trading

COMPASS accepts discretionary authority to manage securities accounts on behalf of clients. COMPASS has the authority to determine, without obtaining specific client consent, the securities to be bought or sold, and the amount of the securities to be bought

or sold. However, COMPASS consults with the client prior to each trade to obtain concurrence if a blanket trading authorization has not been given.

The client approves the custodian to be used and the commission rates paid to the custodian. COMPASS does not receive any portion of the transaction fees or commissions paid by the client to the custodian on certain trades.

Item 17: Voting Client Securities

Proxy Votes

COMPASS does not vote proxies on securities. Clients are expected to vote their own proxies. The client will receive their proxies directly from the custodian of their account or from a transfer agent.

When assistance on voting proxies is requested, COMPASS will provide recommendations to the client. If a conflict of interest exists, it will be disclosed to the client.

Item 18: Financial Information

Balance Sheet

A balance sheet is not required to be provided because COMPASS does not serve as a custodian for client funds or securities and COMPASS does not require prepayment of fees of more than \$500 per client and six months or more in advance.

Financial Conditions Reasonably Likely to Impair Advisory Firm's Ability to Meet Commitments to Clients

COMPASS has no condition that is reasonably likely to impair our ability to meet contractual commitments to our clients.

Bankruptcy Petitions during the Past Ten Years

Neither COMPASS nor its management has had any bankruptcy petitions in the last ten years.

Item 19: Requirements for State Registered Advisors

Education and business background, including any outside business activities for all management and supervised persons can be found in the Supplement to this Brochure (part 2B of Form Adv Part 2).

None to report.

Other Business Activities

Gretchen Brunner is also a licensed insurance agent and tax preparer with COMPASS. Ms. Brunner is also a registered representative with Gradient Securities, LLC. Approximately 25% of her time is spent in those activities. From time to time, she will offer clients services from those activities.

These practices represent conflicts of interest because it gives her an incentive to recommend products based on the commission and/or fee amount received. This conflict is mitigated by disclosures, procedures, and the firm's Fiduciary obligation to place the best interest of the client first and the clients are not required to purchase any products or services. Clients have the option to purchase these products and services through another insurance agent, registered representative or tax preparer.

Additional Compensation

Gretchen Brunner receives separate, yet typical commissions or fee for the insurance and securities products she sells to clients.

Supervision

Since Gretchen Brunner is the President of Comprehensive Planning Associates, Ltd., she is also responsible for all supervision and formulation and monitoring of investment advice offered to clients. She will adhere to the policies and procedures as described in the firm's Compliance Manual.

Gretchen Brunner can be reached at 203-454-5970 or by email at: services@compass-ltd.com.
